## Professional Summary

---

Android Developer with **2 years of experience** in end-to-end mobile application development, specializing in **Jetpack Compose**, Kotlin, and MVVM architecture. Strong expertise in building scalable, high-performance Android applications using modern Android development practices, RESTful APIs, Room Database, and Firebase. Proven ability to deliver production-ready applications optimized for performance, usability, and maintainability.

## Technical Skills

---

**Languages:** Kotlin, Java, XML

**UI Frameworks:** Jetpack Compose, Material Design

**Architecture:** MVVM, Clean Architecture

**Libraries & Tools:** Retrofit, Dagger, Room, Firebase

**Development Tools:** Android Studio, Git, GitHub

**APIs:** RESTful APIs, JSON

**Database:** Room Database

## Professional Experience

---

### Yes IT Labs Pvt. Ltd.

Jan 2024 – Present

*Software Engineer (Android Developer)*

- Developed and maintained multiple Android applications using **Kotlin** and **Jetpack Compose**.
- Implemented **MVVM architecture** to ensure scalable and maintainable codebases.
- Integrated RESTful APIs using Retrofit and handled JSON parsing efficiently.
- Optimized application performance, memory usage, and battery consumption.
- Collaborated with cross-functional teams for requirement analysis, debugging, testing, and deployment.

## Key Projects

### LawCo

- Legal service platform connecting attorneys and consumers.
- Features include attorney discovery, appointment scheduling, and case management.
- Integrated real-time data handling and secure API communication.

### Cercil It

- Family event management application for tracking attendees and gifts.
- Implemented user-friendly UI and local data storage using Room Database.

### KMS-1

- Car security application integrated with a hardware device.
- Enabled authorized access control and vehicle security management.

### **Compro**

- Freelancer marketplace application with separate user and professional panels.
- Implemented profile management, hiring workflows, and direct communication features.

### **Cassonova (Jetpack Compose)**

- Designed and developed a modern Android application using **Jetpack Compose**.
- Built responsive UI components using Compose state management.
- Followed MVVM architecture for clean and testable code.

### **CureMeGPT (Jetpack Compose)**

- Developed an AI-based healthcare assistance app using **Jetpack Compose**.
- Implemented modern UI patterns and dynamic UI rendering.
- Focused on performance optimization and smooth user experience.

## **Certifications & Achievements**

---

- Certified Android Developer – Ducat IT Training School
- Rising Star – Android Developer (May 2024), Yes IT Labs Pvt. Ltd.

## **Education**

---

### **Bachelor of Computer Applications (BCA)**

## **Additional Information**

---

**Languages:** Hindi, English

**Hobbies:** Traveling, Listening to Music, Watching Movies
